Week 8
(Module 6 Part 2)

CS 5254

Midterm exam

- This is our first of two summative assessments for the semester (the final exam is the second)
  - There are no new readings, quizzes, or discussions this week so you can focus on the exam
    - This week we only have the midterm and our ongoing Project 2B
- Coverage is comprehensive from Module 1 through Module 6
  - Includes all readings, videos, assignments, and Q&A sessions
- Midterm exam format:
  - Timed quiz taken via Canvas (similar to our quiz assignments)
    - All questions are multiple-choice, with no more than four options each
    - Open to course resources, but time is limited
  - The exam is split into three independent parts, to provide scheduling flexibility
    - Each part has 20 questions to be completed within 30 minutes
    - Each part covers a random cross-section of the materials
    - You must submit all three parts before the due date!
  - Feedback is limited to your score for each part
- Availability:
  - Monday (10/10) at noon ET through Monday (10/17) at noon ET
- For more details:
  - Please see also the Week 7 and Week 8 Announcements posts in Piazza
  - Feel free to ask in Piazza if you have any further questions or concerns
